**INFORMATION:**

- The measurement of our window blinds are always 1/2" narrower than their stated size: Therefore, the width of the headrail and slats of a 36"x64" blind measures 35-1/2".
- The width of a blind can be modified for \$12.00 as can the length. While this adds considerably to the cost, it's usually still less than purchasing custom-made blinds.
- Prices listed do not include shipping. Our website will calculate the shipping charge or we can give you a quote by email.
- Prices are subject to change without notice. Our website will always have the latest pricing.
